Citation Record Sheet for Research

IMAGE Citation Builder

	Creator(s) LAST, FIRST	Title of Work (or brief description if no title)	Year of Creation	Web Site Name or Image URL	Date of Access DAY MONTH YEAR
1.					
2.					

Convert information you gathered in your boxes above into citations using the pattern below. Don't forget to use periods between each element! (DD is the date of the month, YYYY is the year)

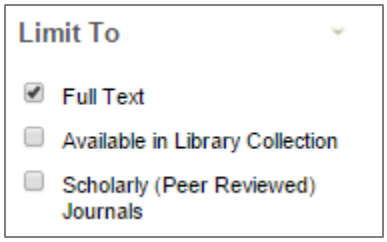
Ex: CreatorName (Last, First if given). Title of Work. YYYY. Web Site Name. DD Mon. YYYY.

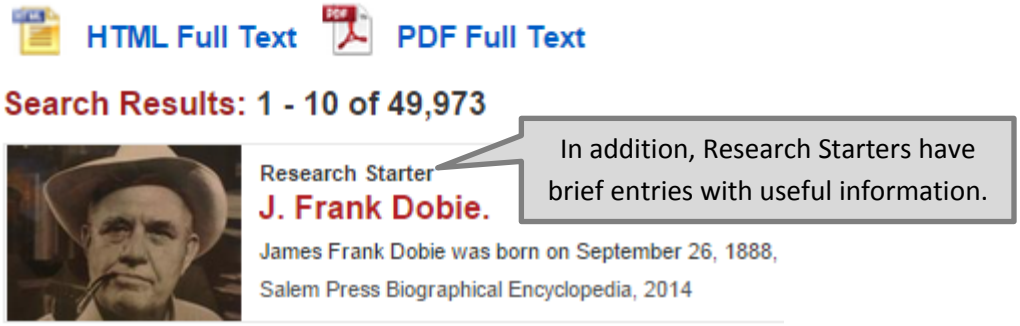
CITATIONS (In your final copy that you turn in, order citations alphabetically and indent additional lines used, so that only the first line of each citation is left justified.)

1.	_____ _____
2.	_____ _____
3.	_____ _____
4.	_____ _____
5.	_____ _____

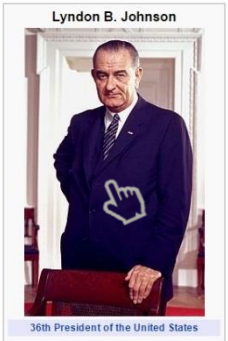
In databases, find articles with full text.

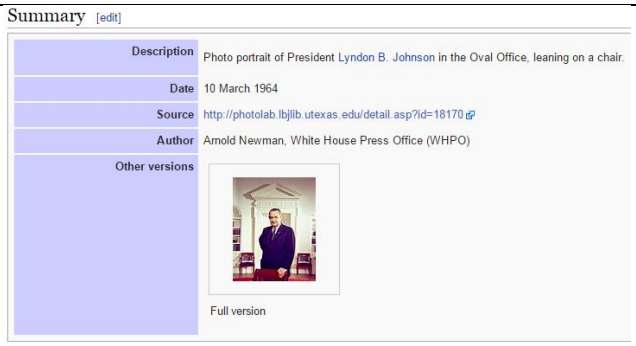
Many search results provide citations for articles that exist, but only some results give you access to the actual text. Use the filters on the left to see only search results with full text articles. Look for HTML and/or PDF icons. (HTML is a web page format, while PDF is a print format, like a page out of a journal or magazine.)

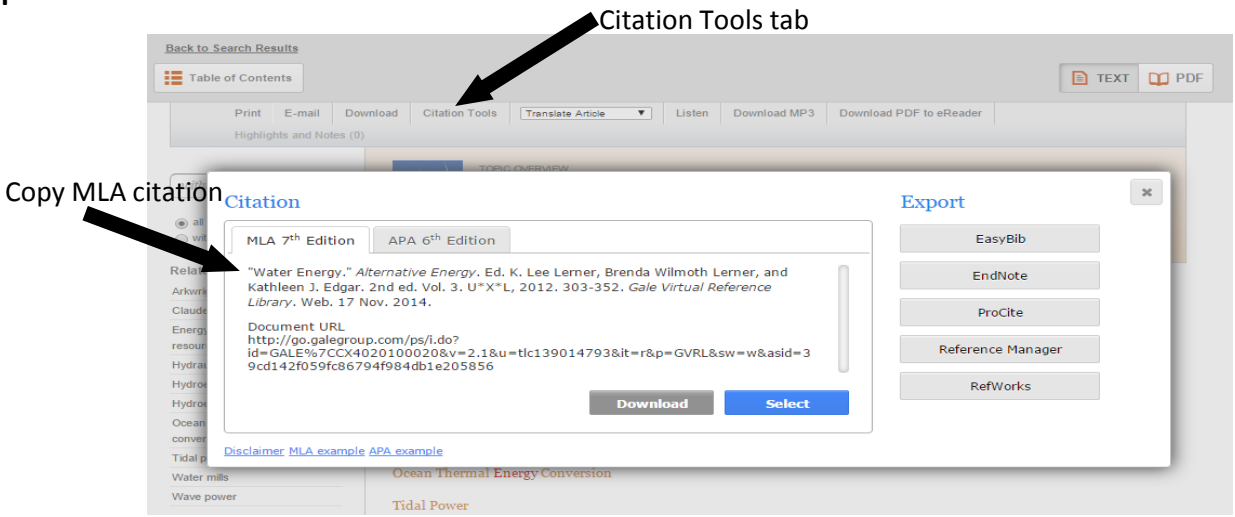




To cite an image from Wikipedia:

Click on the image	Click on MORE DETAILS	Use meta data given to complete citation
		




To cite an article from a database:


Most databases, online encyclopedias, and ebooks provide citation information for you. Find "Citation Tools" or "Cite" on the page, then look for the MLA format citation provided. **Be sure to pay attention to punctuation!**
